This military biography examines the man who sought to rebuild the Germany Army after WWI—and the rival who stoked the rise of Nazism. After Germany's devastating defeat in the First World War, General Hans von Seeckt became Chief of the Army Command at the Reichwehr Ministry of the Weimar Republic. His job was to rebuild the shattered German army and repair the nation's standing on the world stage. The punitive terms of the post-war settlement made

these ambitious goals nearly impossible, but the most significant challenges von Seeckt faced came from within Germany. Von Seeckt aimed to build a modern and efficient military with a main strategy of peaceful defense purposes. This original and far-sighted policy was opposed by his rival, General Erich Ludendorff, who led a nationalistic movement seeking revenge for Germany's defeat. Ludendorff proposed to rebuild the once-mighty German imperial army as a major international force. The failure of von Seeckt's experiment was tragically mirrored by the fall of the Weimar Republic, and the rise of rise of Hitler and Nazi

Germany. A Where's Wally? for the Tate Modern generation, the book is filled with a host of extra puzzles and activities. The fourth and final Colin and Martin Christmas story sees the two men leaving Yorkshire to begin new lives in Australia. Martin Kellam has no qualms about saying goodbye to what remains of his family, while Colin's parting gift to Martin's brother is a well-deserved punch in the nose. Before leaving, the two men have one final Christmas in London with Colin's parents, who are pulling out all the stops to make it an occasion to remember. Martin enjoys teasing his husband. He knows Colin can never resist going in

search of presents before Christmas Day. As this is their last winter Christmas, Martin boxes up a lump of coal and puts it somewhere where Colin will find it. The festivities are brought to an abrupt halt when Colin's mother reveals disturbing news that throws Colin and Martin's emigration plans into turmoil. Despite Martin's much-needed comfort and reassurance, Colin is torn between family obligation and the future he and Martin have longed for. Can Martin show him that he can have both?

2018 NATIONAL JEWISH BOOK AWARD BOOK OF THE YEAR

In this dual autobiography, the Klarsfelds tell the dramatic story of fifty

years devoted to bringing Nazis to justice. For more than a century, Beate and Serge Klarsfeld have hunted, confronted, and exposed Nazi war criminals, tracking them down in places as far-flung as South America and the Middle East. It is they who uncovered the notorious torturer Klaus Barbie, known as "the Butcher of Lyon," in Bolivia. It is they who outed Kurt Lischka as chief of the Gestapo in Paris, the man responsible for the largest deportation of French Jews. And it is they who, with the help of their son, Arno, brought the Vichy police chief Maurice Papon to justice. They were born on opposite sides of the Second World War. Beate's

father was in the Wehrmacht, while Serge's father was deported to Auschwitz because he was a Jew. But when Serge and Beate met on the Paris metro, they instantly fell in love. They soon married and have since dedicated their lives to "hunting the truth"—both as world-famous Nazi hunters and as meticulous documenters of the fate of the innocent French Jewish children who were killed in the death camps. They have been jailed and targeted by letter bombs, and their car was even blown up. Yet nothing has daunted the Klarsfelds in their pursuit of justice. Beate made worldwide headlines at age twenty-nine by slapping the high-profile ex-Nazi

propagandist Chancellor Kurt Georg Kiesinger and shouting "Nazi!" Serge intentionally provoked a neo-Nazi in a German beer hall by wearing an armband with a yellow star on it, so that the press would report on the assault. When Pope John Paul II met with Austria's then-president, Kurt Waldheim, a former Wehrmacht officer in the Balkans suspected of war crimes, the Klarsfelds' son, dressed as a Nazi officer, stood outside the Vatican. The Klarsfelds also dedicated themselves to defeating Jean-Marie Le Pen's National Front and his daughter Marine Le Pen's 2017 campaign for president in France. Brave,

urgent, and buoyed by a remarkable love story, *Hunting the Truth* is not only the dramatic memoir of bringing Nazis to justice, it is also the inspiring story of an unrelenting battle against prejudice and hate. All you need to track and record paranormal activity! Ectoplasm...cold spots...orbs...everyone loves a real-life ghost story! Ghosthunter Melissa Martin Ellis takes you on an exciting journey into the supernatural world of haunted sites, restless souls, and messages from beyond the grave. Moving portraits of abandoned Spanish hunting dogs taken in rescue centers in Spain 'An excellent companion to Learning to Teach in Secondary School ...

full of good ideas and better advice ... Mentors will certainly want to use it, and so, I'm sure, will the rest of the history department ... Make sure they buy one, and keep your copy under lock and key.' - Michael Duffy, Times Educational Supplement 'A very well written and readable book. Overall, this is an excellent book and one which students and teachers outwith England would find a valuable addition to their library.' - Scottish Association of Teachers of History, Resources Review 'This book is without question the standard text for the history PGCE market.' - Dr Ian Davies, University of York, on the first edition. Learning to

Teach History in the Secondary School provides an accessible introduction to teaching and learning history at secondary level. Underpinned by a theoretical perspective and backed up by the latest research, it encourages student teachers to develop a personal approach to teaching history. This fourth edition has been thoroughly updated for the new curriculum, with a brand new chapter on subject knowledge and a new section on action research to better support those reflecting on and developing their own practice. It provides an array of references and materials that give a sound theoretical foundation for the teaching of

history, including weblinks to further resources, while a range of tasks will enable students to put their learning into practice in the classroom. Practical advice is combined with reference and access to a wide range of recent and relevant research in the field of history education, to support Masters Level research and aid reflective practice. Key issues covered include: The benefits of learning history Planning The use of language and strategies for teaching Inclusion Technology in history teaching Assessment Continuing professional development Offering comprehensive and accessible support to becoming a history

teacher, this book remains an invaluable resource for all training and newly qualified history teachers. Seattle Detectives Jim North and Kerry Martin race against the clock to recover a missing child and through their investigation, they uncover far more sinister intentions. A Level Law explains the basic principles and highlights key cases and statutes in clear and uncluttered language. The new edition has been updated to cover new legislation (such as the Police Reform Act 2000), new reports (such as the Leggatt Review of Tribunals) and new case law such as that on strict liability (B v DPP [2000] and R v K [2001]), theft

(R v Hinks [2000]), criminal damage and recklessness (R v G and another [2003]), vicarious liability (Lister v Hesley Hall Ltd [2001]), causation in negligence (Fairchild v Glenhaven Funeral Services Ltd [2002] and liability for animals (Mirvahedy v Henley [2003]). Realizing 'the bad guy' is actually their true mate was NOT part of the plan. Martin knows he's closed off. It's easier to keep himself from getting hurt if he keeps everyone at arm's length, but meeting a beautiful blue-haired man during a hunt changes everything. Dorian's entire world turns upside down when he meets two handsome hunters who are hot on his

heels. He doesn't want to be the bad guy, but he's found himself in a sticky situation that he can't get out of without a little help. Despite Martin's cold exterior, Cooper knows there's more to him than his muscles and sarcasm. He patiently waits for Martin's walls to come down, and to his surprise, meeting Dorian is the thing that brings them down. Confessions of true mates and scary first kisses bring them together. Now they just have to figure out how to save Dorian from the circumstances he's found himself in. Hunting for Acceptance is book three in A Collection of Hunters. Though this book is a standone, this series is best enjoyed read in

order. This MMM story features overcoming one's guilt over things they can't control, a siren falling for a couple of hunters, bathtub shenanigans, found family, mpreg, and of course, a happily ever after. A renowned expert in the field of bio-archaeology presents a fascinating foray into the most significant archaeological breakthroughs that have forever altered our comprehension of the human past, detailing the discoveries and analyses that have helped revise the human genealogical tree and answer questions that have befuddled researchers for years. 15,000 first printing. The Instant #1 New York Times Bestseller (October 2018)

Confronting Nazi evil is the subject of the latest installment in the mega-bestselling Killing series As the true horrors of the Third Reich began to be exposed immediately after World War II, the Nazi war criminals who committed genocide went on the run. A few were swiftly caught, including the notorious SS leader, Heinrich Himmler. Others, however, evaded capture through a sophisticated Nazi organization designed to hide them. Among those war criminals were Josef Mengele, the "Angel of Death" who performed hideous medical experiments at Auschwitz; Martin Bormann, Hitler's brutal personal

secretary; Klaus Barbie, the cruel "Butcher of Lyon"; and perhaps the most awful Nazi of all: Adolf Eichmann. Killing the SS is the epic saga of the espionage and daring waged by self-styled "Nazi hunters." This determined and disparate group included a French husband and wife team, an American lawyer who served in the army on D-Day, a German prosecutor who had signed an oath to the Nazi Party, Israeli Mossad agents, and a death camp survivor. Over decades, these men and women scoured the world, tracking down the SS fugitives and bringing them to justice, which often meant death. Written in the fast-paced style of the Killing series,

Killing the SS will educate and stun the reader. The final chapter is truly shocking. After nearly fifty years as MFH and huntsman of England's College Valley Hunt, Martin Letts retired only when he could no longer follow his hounds through the steep rocky country in the northern hills of England. In his new memoir, Letts recalls how he bred and trained the formidable hounds that eagerly hunted this challenging countryside and would become the basis of numerous English and American packs. But Letts also recalls a host of passionate people with whom he's spent many days in the hunting field, sometimes in their best

moments and sometimes in moments they'd rather forget. C. Martin Wood, MFH of the Live Oak Hounds in Florida, writes an Introduction that sets the scene for the memories that follow. "This treatise is a great example of knowledge meeting pen and paper. It will stand the tests of time as a way for the 'expert, ' as well as the novice, to get a grasp of the issues to be faced when building, developing, and hunting a cracking pack of foxhounds," writes Wood. Martin Letts's *Memories of My Life at the College Valley* has been edited by John Strassburger, for twenty years the editor of *The Chronicle of the Horse* and now its

Foxhunting editor. When a young girl vanishes from a cabin in the woods, Missing Person Detectives Jim North and Kerry Martin work the case to find her. However, it doesn't take long before these detectives realize the people behind the abduction are far deadlier than anyone they've come up against before. Jim and Kerry will navigate a secret society where money and power fuel dark desires: at any cost. family packs up and moves once again—this time to join other Amish families in Colorado where inexpensive farmland is plentiful. Despite the drought, Mother's illness, and a raging wildfire, the family quickly adapts to life in their new homeland. Along the way young Joe, intrigued with the exciting stories of the area's gold rush and dreaming of an easier life, tries his hand at gold panning. One adventure leads to another, but it's the chance meeting with an older gentleman—who had panned for gold most of his life—in which Joe learns some of life's truly golden lessons. Together, the old man and the boy discover real treasure. Based

on actual events from a time long ago, this unforgettable story from the Amish Frontier Series, perfect for ages 8 to 12, brings to life the Yoder family's struggle to live a life of faith on the Colorado frontier. Join Waldo and friends on four fantastic adventures in search of treasures—while doing activities and solving puzzles using brain power and a pen. Seek out four lost treasures (a shell, a gem, a feather, and a star) as you play games at sea, across landscapes, up in the sky, and in outer space. Divided into four journeys, this hands-on book is packed with hundreds of searches as well as mazes, word puzzles, matching games, quizzes, spot-the-

difference activities, riddles, tangle line teasers, and more. Add the end-of-book checklists with lots of extra things to find and you have hours of mind-bending fun to return to again and again. Tremendous! The author, in his thorough investigations, has interviewed all the leading participants involved and can now reveal the true story of the 'Brown Eminence'. The Treasure-Hunt Friends Discover Autistic Trends is the fourth book in author Brenda Darnley Martin's Treasure-Hunt Fish picture-book series, promoting positive life lessons to children. In this book, Freddie, Hector, and Tish meet Adam, who is autistic, when they visit their

friend, the "Carrie Lee," a sunken ship in Old Tampa Bay. Despite the fact that Adam cannot speak, they have a wonderful time playing together, become fast friends, and decide that they will regularly include him in their daily adventures. The message of this book, like the others in the Treasure-Hunt Fish picture-book series, is that life's greatest treasures are friendship, diversity and positive self-esteem. Understanding and including autistic children is of tremendous importance to both the author and the illustrator, who have close family members with the disease. Their hope is that this book will help young

non-autistic children develop tolerance and acceptance of those who are. This practical workbook contains all the advice, guidance and resources new and student history teachers need to reflect on and develop their teaching practice, helping them to plan lessons across the subject in a variety of teaching situations. Helpful features include: case studies examples of pupils' work examples of existing good practice a range of tried-and-tested teaching strategies photocopiable resources and training materials activities in each chapter to help student history teachers analyze their learning and performance web links for further reading on

evidence-based practice. Designed to be used independently or as an integrated extension of the popular textbook, Learning to Teach History in the Secondary School which provides detailed examples of theory in practice, this book is packed with examples of how to analyze practice to ensure maximized learning in the classroom. Two detectives, each with their share of personal and professional baggage, are paired together under the watchful eye of a newly minted lieutenant. The disappearance of two young girls at a slumber party prompts Detective Jim North and Kerry Martin to examine all facets of the girl's

lives, and they discover the girl's parents are hiding more than they're letting on. The Problems Book helps students appreciate the ways in which experiments and simple calculations can lead to an understanding of how cells work by introducing the experimental foundation of cell

and molecular biology. Each chapter reviews key terms, tests for understanding basic concepts, and poses research-based problems. The Problems Book has been This is a story about a strange encounter on the golf course with someone who, on the face of it, knows nothing about golf but who ends up teaching the author about the inner game and questioning his approach to golf and to life itself. It's not just about golf or sport, nor about improvement or progress or how to do something. If anything, it points to a way of living effortlessly that is free and harmonious, that is, to the essence of mindfulness and non-duality. Each of the

nineteen chapters contains a lesson which the author palpably resists for the first few holes. But, gradually he comes to realise the profound truth in the teachings of the stranger and begins to understand the radical perspective of no one playing. Every picture tells a story! A classic Waldo adventure enjoys a refreshed cover — plus two new pages of searches. Ever the globe-trotter, Waldo is eager to show you his pictures. But not so fast — you have to find them first! Enter Odlaw's Picture Gallery and admire thirty peculiar portraits, then try to track down their subjects in the maddeningly intricate scenes that follow. And your challenge

is just beginning! There are hidden characters and objects to hunt for, spot-the-difference spreads, silhouettes to match with originals, and plenty more. Happy hunting — it's truly an art! The revised edition of the highly successful first edition, which has established itself as the student reference guide for student teachers of history. Scala is now an established programming language developed by Martin Oderskey and his team at the EPFL. The name Scala is derived from Sca(lable) La(nguage). Scala is a multi-paradigm language, incorporating object oriented approaches with functional programming. Although some familiarity with standard

computing concepts is assumed (such as the idea of compiling a program and executing this compiled from etc.) and with basic procedural language concepts (such as variables and allocation of values to these variables) the early chapters of the book do not assume any familiarity with object orientation nor with functional programming. These chapters also step through other concepts with which the reader may not be familiar (such as list processing). From this background, the book provides a practical introduction to both object and functional approaches using Scala. These concepts are introduced through practical experience

taking the reader beyond the level of the language syntax to the philosophy and practice of object oriented development and functional programming. Students and those actively involved in the software industry will find this comprehensive introduction to Scala invaluable. The James G. Willie & Edward Martin Handcart Companies were the last to emigrate to Utah in 1856. After leaving Liverpool, England, with such high hopes to make it in the Salt Lake Valley, they ran into snow storms, starvation & death in the foothills of the Wind River mountains in Wyoming. They were finally rescued, but not before over 200 perished of

exhaustion, starvation & freezing to death. Included are the Hunt & Hodgett Wagon Trains as they followed the Martin Handcart company & experienced much of the same cold, hunger & freezing. The book is 6 X 9 hardcover, 230 pages, indexed & includes the daily emigrating journals of all four companies, genealogical information including birth, marriage & death dates of most of the emigrants, & several histories. Photographs of historical sites, including Mississippi, Platte, Sweetwater, Green & Bear Rivers, & Chimney Rock, Fort Laramie, Fort Bridger, Rocky Ridge, Rock Creek & others.
