Do you want to learn real Spanish with complete confidence, but your everyday life leaves you too little time? Are you looking for an easy, quickest and most reliable way to learn Spanish where the whole method is backed by reliable scientific research? Have you been desperately trying to learn the language but simply can't find a way to take the first steps? What about learning Spanish on your own at home, in your free time or even in your car? If you answered YES to at least one of the questions above, then this guide is exactly for you. You have made a great choice as Spanish language is one of the three most spoken languages around the world. In fact, more than 500 million people speak Spanish worldwide nowadays, being the second language, after Chinese, with more native speakers (i.e. using it as mother language). Even in the USA there are more than 40 million Spanish speakers and it will increase with years, becoming the country with most Spanish speakers, surpassing Mexico, in about 30 years. Learning a new language is exciting and challenging at the same time. And as everything, it must be learnt from the beginning and that means start with the alphabet and pronunciation. You can't build a building if the foundations are not robust enough, right? Then you will learn new words about several topics. And from there, you will be able to communicate properly in Spanish. Get fluence is a matter of time and, especially, of using frequently. With LEARN SPANISH IN YOUR CAR for Beginners: You will find extensive lists of vocabulary, and plenty of sentences and examples very useful for actual conversations. And remember: repeat again and again! This type of exercise will be helpful not just to memorise new words, but to understand how to build correctly sentences and to practise pronunciation. The words you're going to learn, from basics as pronouns, adjectives, adverbs, verbs and nouns, will cover a lot of topics and will be used in the most common situations. You are going to learn too how to tell time and dates, and understand, therefore, departures times, trains schedules, etc. that will be a big help when travelling. And, of course, vocabulary that will allow you to talk and express in informal and relaxed conversations for example about nature, animals, colours, your family, etc. You will learn and practise vocabulary to feel confident when ordering food and drinks in a bar or restaurant. And not just food, you will also know several styles of cooking and will discover the different types of meals. Although all this could seem overwhelming, this book has been created to make the journey as enjoyable and practical as possible. Keeping in mind that learning a language takes time and dedication, you can learn Spanish meanwhile you are driving or commuting or having a coffee. So that said... it's time to start your Spanish course! Buckle up and enjoy the trip! In Rally Cars, early readers will go to the racetrack and learn about rally cars, their drivers, and how these fast cars win races. Vibrant, fullcolor photos and carefully leveled text will engage emergent readers as they discover the unique features of these cars. A picture diagram labels the parts of a rally car, while a picture glossary reinforces new vocabulary. Children can learn more about rally cars online using our safe search engine that provides relevant, ageappropriate websites. Rally Cars also features reading tips for teachers and parents, a table of contents, and index. Rally Cars is part of Jump!'s Need for Speed series. Rev your engines, hit the road, and color page after page of awesome vehicles! Super Cool Trucks, Tractors, and Cars Coloring Book for Kids is filled with 40 truck, tractor, and car coloring pages. Express your creativity with dozens of line art designs that also include funny faces, giving each car, tractor, and truck a fun personality to bring to life! Also included are super cool captions and fun facts for each truck, tractor, and car illustration for an exciting learning experience as you color, as well as pages of colorful removable stickers! Some people are hesitant to start learning a new language because they think it will take too long to see any benefit. But if a program is structured around real-world situations, you can focus just on what you need to make quick progress. Children do not become artists overnight. There are a number of different things which help them improve their drawing skills. Without practice, they will not improve. Without dedication, their technique will not develop. And without a simple, step-by-step guide like this one, which is designed to make drawing fun, they will not be passionate. One important thing to remember is that no child will create perfect sketches. When we are younger, it is in our nature to be messy and to experiment as we learn. This means that as a parent or guardian, teaching your children to draw requires a lot of patience. It is likely that your children will want to produce quality drawings straight away and may become frustrated when they cannot do this as well as you can. This is why having a guide such as this one is so important. It teaches kids that learning to draw does not happen at once. Want to learn how to parallel park quick and easy? Wish you could perform a 3-point turn like a pro? Looking to pass your driver's license road test the first time? The solution to these questions is to find simple, easy to perform methods for almost any driving maneuver that you will encounter during your driving lifetime. And that is why you should read "How to Drive a Car" Parallel Parking and Driving Maneuvers Made Easy." Whether your goal is to pass the drivers license road test or simply improve your driving maneuvering/parking skills "How to Drive a Car" Parallel Parking and Driving Maneuvers" will help you. Heres what you will discover in "How to Drive a Car" Parallel Parking and Driving Maneuvers Made Easy! Two Easy to Perform Methods in Order to Parallel Park Successfully How to execute a 3-Point Turn (K Turn) Learn how to use a Two-Point Turn Perpendicular Parking Skills Parking on a Hill Valuable Road Test Tips You will learn all of these valuable lessons and more from a teacher who has taught thousands of students how to drive in his 37 year career. All of these methods are simple and easy to use. "How to Drive a Car" Parallel Parking and Driving Maneuvers Made Easy" provides you with step by step directions along with clear cut diagrams that can be taken directly to your driving practice site! Be sure to check out these other titles in the "Learn to Drive" Series. "Save Your Teenage Driver's Life" Important Strategies to Teach a New Driver Now" "Teach Your Teenager How to Drive a Car" "Sequential Lessons For New Driver" Also various State Practice Test Questions and Study Guides Good Luck and Safe Driving! Early learning made easy. Take your kids on an alphabetical adventure through a selection of car parts. Pass on your passion for cars to your little legends! - Perfect for early learning and development. - Ideal way to learn the alphabet in a fun and entertaining way. - * May cause children to have your taste. Over 60,000 drivers are killed each year in auto accidents. Thousands more are injured, costing our nation billions of dollars! Teenage drivers alone were responsible for over 14,000 fatal crashes in the past 5 years! "Teach Your Teenager How to Drive a Car" will instruct parents: On how to effectively get their teenagers out onto the road safely and defensively. All the lessons on how to successfully teach a teenager how to drive a car are right here in a simple, easy to follow plan. On how to reinforce all the important skills and techniques associated with modern defensive driving! This book will also serve as a gentle reminder on how the adult instructor must serve as a role model each and every day for their new driver by demonstrating responsible driving habits and behaviors. "Teach Your Teenager How to Drive a Car" will provide new drivers with: All the lessons necessary to navigate our very complicated and hectic highway transportation system. The book progresses from the parking lot all the way to the skills of entering and driving on fast paced multi lane highways. All the proper skills and techniques necessary to handle a 2000 pound vehicle at high speeds both safely and defensively are right here! "Teach Your Teenager How to Drive a Car" will provide valuable lessons on: Proper car pre-start protocol.

Handling the natural laws and driving forces. Driving in the city. Handling complicated intersections. Entering, driving on and exiting an expressway. Parallel parking, 3 point turns and angle parking. Handling emergency situations. Preparing for the road test. And much more! Driving a 2000 pound car at high speeds is no simple task. With the virtual demise of driver education programs in this country, increased pressure has been put on parents to effectively provide the driver education for their new drivers. Unfortunately most parents fail miserably, and really do not know where to begin when instructing their teenage drivers. Millions of dollars are spent on youth sports in america , but very little money is spent on the critical lifesaving skill of how to drive a car properly. Parents and teens download this book now and learn all the skills necessary to help keep you safe on the roads for the duration of your driving careers. "Teach Your Teenager How to Drive" will get you there! So scroll to the top of this page and buy now! Learn to drive at Horses for Courses! Calling all learner drivers! Meet Jeremy Sparkplug (but you can call him Sparky) and his world-class racing driver assistant, Peggy. They are your expert instructors for all things on four (or more) wheels! Start your engines and watch those corners, they'll teach you everything you need to put the pedal to the metal and feel the need for speed! From the basics (how to go FAST) to tips and tricks (how high can a car fly?), learn all about land vehicles and earn your Golden Horseshoes! On your marks... get set... GO! Whether you are new to British Columbia, taking a re-examination, or brushing up on your driving skills, the Learn to Drive Smart guide gives you the basic information to help you drive safely. The guide will also help you prepare for the knowledge test, and Class 7 and Class 5 road tests. * Google Play may require a credit card to activate your account. ICBC does not collect your credit card information and the driving guides are free. Please see Google Play Terms of Service for more information. Cars are great tools, but it's important to be safe while riding in them. This title prompts readers to use their safety smarts when it comes to riding in the car. They'll learn why safety in the car is so important, and they'll learn what they can do to be safe and responsible passengers. Written to have an ATOS level between 0.5 - 0.9, this title is a great way to introduce beginning readers to important safety concepts. Detailed images, a Words to Know section, index, and websites complete a comprehensive learning experience. Fire up your engines and let's begin to draw! This how to draw cars for kids will show kids how easy it is to draw cars. By simply following the step by step pictures in this how to draw cars book they will be able to draw 30 different cars. This kid's activity book will enhance their creativity and every drawing they finish will boost their confidence. Drawing lessons for kids with simple techniques made easy with this how to draw book! *How to draw for toddlers *How to draw for preschoolers *How to draw for kids ages 2-4 *How to draw for kids ages 4-8 *How to draw for kids ages 9-12 TAGS: how to draw cars, how to draw book, how to draw step by step drawing book, how to draw cars for beginners, how to draw cars in simple steps, how to draw cars for kids, how to draw cars for preschoolers, how to draw activity book, most popular how to draw car book Do you want to learn how to draw cars? Do you enjoy drawing activities? If you want to learn how to draw cars from scratch and want to learn how to do it on your own, then "How to Draw Cars:Step by Step How to Draw Book for Kids, Learn How to Draw 50 Cars" is the book that will show you how. By simply following the step by step pictures in this how to draw cars book you will be able to draw 50 different cars. This how to draw book provides drawing lessons for kids like you using simple techniques. What are you waiting for? Have a copy now and get how to draw cars for beginners like you! Age specifications:*How to draw for toddlers*How to draw for preschoolers*How to draw for kids ages 2-4*How to draw for kids ages 4-8*How to draw for kids ages 9-12 TAGS:how to draw cars book, how to draw book, how to draw step by step drawing book, how to draw cars for beginners, how to draw cars in simple steps, how to draw cars for kids, how to draw cars for preschoolers, how to draw activity book, most popular how to draw car book How Cars Work is a completely illustrated primer describing the 250 most important car parts and how they work. This mini test book includes wonderfully simple line drawings and clear language to describe all the automotive systems as well as a glossary, index, and a test after each chapter. How Cars Work provides the basic vocabulary and mechanical knowledge to help a reader talk intelligently with mechanics understand shop manuals, and diagnosis car problems. Tom Newton guides the reader with a one topic per page format that delivers information in bite size chunks, just right for teenage boys. How Cars Work was the most stolen book at Kennedy High School in Richmond California! Teachers like our title and so do librarians. The History channel, Modern Marvels-2000, Actuality Productions, Inc is using How Cars Work to train staff for a documentary on automobiles. Your child will not only learn the alphabet using car parts as an example but also many interesting stories about automobiles. You'll be able to bond with your child by explaining to them how the different parts in a car work. Did you know that the first car navigation looked like a wristwatch? With this book your child will learn: All the letters of the alphabet - Each letter in the alphabet is accompanied by a picture with at least one part of the car that begins with that letter. Car parts - Each part is accompanied by, a brief definition. The book covers various parts such as airbag, engine, shock absorber, or seat belt. Interesting Facts - On each page, there is an interesting fact or historical reference about automobiles. Your child will learn when the first car was built, what the first headlights looked like, or the history of the first driving license. You, with this book, will get the opportunity to connect with your child. You will be able to elaborate on the different parts of a car. Some definitions will require further explanation, so you can explain them to your child and get them interested in automobiles. Also, you will learn interesting facts about cars and you will be able to expand your knowledge about this topic together. Together you can talk for hours about cars. Content information about this book: 50 colorful pages with alphabet letters from A to Z - with pictures definitions and fun facts Knowledge and Education - short interesting facts about cars Cover - eye-catching elements make the child more likely to reach for the book If you want your child to learn letters enjoyably, spend a pleasant time with him explaining how a car works, and learn some interesting facts and stories, choose our book. You know cars. You rode in one. But do you know super cars? These are cars that can go very fast. They're made with more "muscle" and are therefore, much more expensive than your regular cars. This book will take you behind the scenes of the production of these super cars. Learn the technology that made them strong and powerful on the road. Buy t If you have a child who likes race cars, then this book should go in his collection. Aside from beautiful pictures, the book also contains information explaining how cars work. By combining design with facts, we create a book that will feed the brain with facts and pictures. So what are you waiting for? Secure a copy of this car book for kids! Learn ABC's with Things That Go book helps the child in learning alphabets by exploring colorful illustrations of vehicles like Ambulance, Bulldozer, Crane, Double Decker Bus, Excavator, Fire Brigade, Garbage Truck, Helicopter, Ice Cream Truck and Many More.. ABC book of Things That Go is a picture book and a perfect book for parents if they have small kids at home who are going to start school, because it makes learning easy, fun, and interesting. It is a good book for teachers and educators to introduce the alphabets and new words to children in classrooms, and parents and grandparents can read it out to their children and grandchildren at bedtime. Learning is fun from A to Z! Enjoy more books from the ABC Book series by Sachin Sachdeva: ABC Book of Animals. BEST GIFT IDEA FOR CHRISTMAS, BIRTHDAY OR BACK TO SCHOOL - SPECIAL LAUNCH PRICE (WHILE STOCKS LAST!!) This Drawing and Activity Book celebrates the fun and excitement of the summer and holidays season by bringing creative drawing tutorials. This book series contain super, hyper, exotic, concept, racing, sport and muscle cars with step by step illustrations guide to master drawing. INSTRUCTIONS: These drawing tutorials are designed for all ages. Each lesson includes detailed illustrations and a step-by-step instructions. If you can hold a pencil then you can learn to draw! The Tutorial is divided to drawing steps and erasing steps, with a page to practice for each design. Draw the basic template of a car and start from there to achieve a professional piece of art Step by Step! Keep yourself or your kids entertained for hours with this fun activity book. Makes a useful and educational birthday, Christmas or back-to-school gift for kids, teens and adults that love drawing! From Amazon KDP Select All-Star Award Winning Tinker Toddler Series! VROOM VROOM! BEEP BEEP! Follow Aria on this rhyming adventure as they take their first ride in a self-driving car and encounter circumstances that are ...well...unplanned. Key Features: EARLY LEARNING: Great for your budding genius (and you) to learn about emerging technology that will become part of your child's everyday life! Bolded key words to grow your child's vocabulary throughout the story. Recommended for ages 3-8 (preschool-first graders and for those new to the topic). Great for those interested in early STEM learning. VIBRANT ILLUSTRATIONS: Simple, bold, and colorful illustrations to grab the child's attention. RHYMING STORY: Playful, fun and engaging story introducing various challenges self-driving cars face and how they navigate them (all told in rhyme). When read multiple times, parents can prompt children to remember key words that were part of the rhyme. GLOSSARY: Kid friendly glossary provided in the back for parents to support (and enhance) the child's learning every time the book is read. ACTIVITY: Drawing activity in the back of the book inspiring kids to think about their own self-driving car and all the features they would want built in. RELEVANT: Self-driving cars are both our present and our future. This book will introduce basic concepts, key technology (RADAR, LIDAR, Level 0-5, etc), and

challenges (traffic jams, storms, parking, etc), self-driving cars must face (Elon Musk's Tesla, Amazon's Zoox, NuTonomy, Google's Waymo, etc) in a very simple, fun, picture book story format easily digestible by kids 3-8. "In the city of Smartville, one cool winter day, young Aria is eager to get on her way. We'll have an adventure! This trip will be grand! I can't wait for the things I have planned. Traveling far? Yes, we certainly are! On our trip, we will take the new self-driving car!" The colorful, beautiful, and visually stimulating illustrations and easy to understand rhyming text will encourage the child's sense of wonder, adventure, and curiosity (and might stimulate your senses too)! Presents step-by-step instructions for drawing the characters of the Cars movie series, including Lightning McQueen, Mater, Finn McMissile, and Siddeley. Explore self-driving car technology using deep learning and artificial intelligence techniques and libraries such as TensorFlow, Keras, and OpenCV Key FeaturesBuild and train powerful neural network models to build an autonomous carImplement computer vision, deep learning, and AI techniques to create automotive algorithmsOvercome the challenges faced while automating different aspects of driving using modern Python libraries and architecturesBook Description Thanks to a number of recent breakthroughs, self-driving car technology is now an emerging subject in the field of artificial intelligence and has shifted data scientists' focus to building autonomous cars that will transform the automotive industry. This book is a comprehensive guide to use deep learning and computer vision techniques to develop autonomous cars. Starting with the basics of self-driving cars (SDCs), this book will take you through the deep neural network techniques required to get up and running with building your autonomous vehicle. Once you are comfortable with the basics, you'll delve into advanced computer vision techniques and learn how to use deep learning methods to perform a variety of computer vision tasks such as finding lane lines, improving image classification, and so on. You will explore the basic structure and working of a semantic segmentation model and get to grips with detecting cars using semantic segmentation. The book also covers advanced applications such as behavior-cloning and vehicle detection using OpenCV, transfer learning, and deep learning methodologies to train SDCs to mimic human driving. By the end of this book, you'll have learned how to implement a variety of neural networks to develop your own autonomous vehicle using modern Python libraries. What you will learnImplement deep neural network from scratch using the Keras libraryUnderstand the importance of deep learning in self-driving carsGet to grips with feature extraction techniques in image processing using the OpenCV libraryDesign a software pipeline that detects lane lines in videosImplement a convolutional neural network (CNN) image classifier for traffic signal signsTrain and test neural networks for behavioral-cloning by driving a car in a virtual simulatorDiscover various state-of-the-art semantic segmentation and object detection architecturesWho this book is for If you are a deep learning engineer, AI researcher, or anyone looking to implement deep learning and computer vision techniques to build self-driving blueprint solutions, this book is for you. Anyone who wants to learn how various automotive-related algorithms are built, will also find this book useful. Python programming experience, along with a basic understanding of deep learning, is necessary to get the most of this book. "Classic cars express a range of feelings to teach younger children about facial expressions"-- How To Draw Vehicles Is your child obsessed with cars or planes? Do you want to combine their interest with a creative hobby? Then How to Draw Vehicles is the perfect book for you! Learning to draw has many benefits for children-it develops fine motor skills and encourages creativity. Plus, drawing is a wonderful skill your child can enjoy for their entire life. With simple-to-follow instructions, your child can learn to draw a sailboat, fighter jet, and monster truck! Each vehicle includes a fun fact about the origin and use (Do you know who was the youngest person to sail around the world? Or what year was the monster truck invented?). After drawing their favorite cars and boats, your kids can color in the finished drawing for even more fun! Features include: 9-step style instructions to draw 50 vehicles Great for learners of all ages No previous experience is necessary A great alternative to tablets and phones Bonus Content Inside: The Main Use Of Each Vehicle Where Each Vehicle Was Made And a Fact about each Vehicle If your child is ready to learn how to draw their favorite vehicles, select 'Add To Cart' and purchase How to Draw Vehicles! "The art of drawing has never been so easy or fun! Learn all about drawing machines fueled for adventure, whether it be through the air, on land, or across the sea. Inside, you'll find photos and fascinating facts about your drawing subjects. Follow the simple, step-by-step examples, and soon you'll be creating your own masterpieces!"--P.[4] of cover. In Stock Cars, early readers will go to the racetrack and learn about stock cars, their drivers, and how these fast cars win races. Vibrant, fullcolor photos and carefully leveled text will engage emergent readers as they discover the unique features of these cars. A picture diagram labels the parts of a stock car, while a picture glossary reinforces new vocabulary. Children can learn more about stock cars online using our safe search engine that provides relevant, ageappropriate websites. Stock Cars also features reading tips for teachers and parents, a table of contents, and index. Stock Cars is part of Jump!'s Need for Speed series. This book teaches kids how to draw cars using grids Learn to Drive, without being in a Car. Step by Step detailed instructions with diagrams showing you 'How to drive a Car' Written by a driving instructor with over two decades of experience...this is the first of a set of six modules which, together create a complete learning journey...for both new and experienced drivers alike. For more information and to buy visit www.spmotoring.com Book 7.99 each ... Kindle 6.49 Kids are fascinated with moving vehicles like cars, airplanes, train, trucks and others. This how to draw book for kids contains 50 cute illustrations of vehicles that will capture children's attention and will encourage them to copy and draw these images as well. By simply following the step by step illustrations in this how to draw cars, trucks and other vehicles book they will be able to draw their own art pieces that they can also color and show off to family and friends. How to draw cars and trucks have never been this easy with every vehicle featured in this book starting their illustrations with just simple lines, curves and circles. Children will never find it difficult to copy the step by step procedure presented in this how to draw book. So what are you waiting for? Grab this how to draw book and start drawing your own cars, trains, trucks and other vehicles! Age specifications: -How to draw for toddlers -How to draw for preschoolers -How to draw for kids ages 2-4 -How to draw for kids ages 4-8 -How to draw for kids ages 9-12 TAGS: how to draw cars, trucks and other vehicles book, how to draw book, how to draw step by step drawing book, how to draw cars for beginners, how to draw cars in simple steps, how to draw cars for kids, how to draw cars for preschoolers, how to draw activity book, most popular how to draw car book Do you want to learn Spanish in a simple, natural and effective way? Are you tired and nauseated from boring grammar lessons? The only truly effective way to learn a new language is: The "immersion method". You have to listen continuously, both day and night, to audio in Spanish to learn the rhythm and musicality first of all. The more hours you spend listening, even without paying direct attention, the more results you will get. Then you will also learn the words and you will start talking. Like children do. Children don't learn from grammar, it's not natural. Grammar was inserted later by induction but it is the slowest and most boring way to really learn a new language. You must also read texts in Spanish, with the translation alongside in order to quickly learn the meaning of the words and how they are written. In this book, with a "free 30-minute conversation and free audiobook", you can immediately immerse yourself in the Spanish language, the one spoken by the natives. Here's what you'll find: Logical texts, entire expressions and sentences in both English and Spanish. This way you won't have to take dictionaries and translate, but you will have everything available. With the free audiobook (ask at SpanishLanguageLearning.com) you will be able to listen wherever you want, in the car, at work, while you do house cleaning or gymnastics and even while you sleep. Your Spanish level will have impressive improvements within a few weeks, even if you start from zero. If you already have the basics of Spanish, it will allow you to step up and improve considerably. You can also request a "free 30-minute conversation" at: SpanishLanguageLearnig.com and speak to a native Spanish speaker who will show you the best way to speed up your learning process even more. No one else offers you all this material at this price. The Spanish language is the second most spoken language in the US and around the world. Learning Spanish will give you much more authority and career opportunities. Plus it will be useful for travel and for life. What are you waiting for? Download the ebook now, and write immediately to: SpanishLanguageLearnig.com to receive the audiobook for free and your first 30 minutes of free conversation in Spanish. How to Draw Super Cars With Step By Step Illustrations provides simple, easy-to-follow pictures that make it easy for kids to start drawing. In just a few simple steps, Super cars fans can learn to illustrate their favorite super cars such as Bugatti, Audi, McLaren, Dodge, Chevrolet, Ford Mustang, Lamborghini etc. Each illustration shows you how to draw Super Cars step by step. Simply follow along drawing in own sketchbook. Add each detail as shown until the picture is finished. If you have never drawn before this is definitely the book for you. Start off drawing lightly and don't worry about making mistakes. You can always erase and start over.When you're finished, you can add your own details and color it! Learning to Draw Is Fun! How to Draw for Kids provides simple, easy-to-follow pictures that make it easy for kids to start drawing. Boost confidence and inspire creativity with 30 Vehicle. Practice drawing also Includes . This is a beginning drawing book is perfect for kids and will provide hours of

creative fun! This drawing book for kids features: □Large 8 1/2 by 11 inch pages □ Has " Pages for practice" of every Vehicle □High-quality, matte cover A Fun Vehicle Counting Book for Kindergarten, Toddlers & Preschool Children! Can your child count them all? Filled with many different types of questions to broaden those little minds, like: Count the red cars? Can you count more trucks or more helicopters? How many can sail on the sea? Your little one is going to develop really important skills of counting, searching, finding and observation. He/she will get to learn different types of transportation (from the road, seas and skies!), will learn common colours and will learn how to apply numbers to objects! This super fun book has 15 different puzzle pages (with answers on the next page) for hours of enjoyable learning! It's the perfect book for developing those little but clever minds! Presents the letters A to Z through illustrations of different vehicles. This automotive maintenance workbook is an excellent classroom learning tool for students who are new to transportation technology. It is also a suitable life skills resource for teachers that have students with special educational needs. Produced from professional lesson plans, several theory and hands-on exercises focus on basic vehicular maintenance. Reading and writing exercises are included to strengthen literacy and numeracy skills. This book concludes with descriptions of various career opportunities for graduates into the transportation sector workforce. This workbook is presented in an easy-to-read format for grade 7-12 students. Learning About Cars can also help prepare students for the OSSLT. Please contact the author if you have any questions regarding this learning guide: cpdsresources@gmail.com Lightning McQueen, Doc Hudson, Smoky and others explore the science of cars. From how a car works to Formula One racing, clear, nonfiction text give all the details. Favorite Cars characters keep readers engaged in the core STEM content. This book teaches kids how to draw cars using grids
