Marvel Vehicles Nov 14 2021 Discover the secrets of the iconic vehicles from the Marvel Comics universe. They may be best known for getting around on their own steam, but sometimes even Marvel Super Heroes need some extra torque. This Haynes Manual takes a look at the amazing vehicles of the Marvel Comics universe, from the X-Men's supersonic jet, The Blackbird, to the mighty Helicarrier that transports the Avengers into battle and the Green Goblin's preferred method of travel, the Goblin Glider. Also covering less well-known modes of transport like Spider-Man's custom beach buggy, the

Spider-Mobile, this lavishly illustrated book forms a comprehensive guide to the iconic vehicles that have helped make the Marvel Universe so rich and compelling. *Marvel Vehicles: Owner's Workshop Manual* is now available in paperback format and comes complete with schematics and in-depth technical information, making it essential for Marvel fans everywhere. © 2017 MARVEL

Building a Special with Ant Anstead Master Mechanic Apr 19 2022 Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.
