The Lost Tradition Jun 08 2021 Four stresses, a line broken in two by a caesura, and a pattern of alliteration linking the two half-lines were features of the staple manner of Anglo-Saxon verse. And this tradition of writing continued into post-Conquest England, sometimes providing a distinctive alternative to rhymed or stanzaic verse, sometimes coexisting with it, occasionally a little uneasily. "But trusteth wel, I am a Southren man; I kan nat geeste 'rum, ram, ruf', by lettre ..." says Chaucer's Parson, parodying the manner of alliterative verse and hinting at its provinciality. Much of it was, in fact, written in the west and north of England. The late efflorescence of alliterative writing in fourteenth-century and early fifteenth-century England is remarkable for its range and quality, and this is the focus of this collection of essays, five of which have not been published before. There are four essays on some of the lyrics preserved in London, British Library MS Harley 2253, two on *Winner and Waster* and *The Parlement of the Thre Ages*, both of which are preserved in London, British Library MS Additional 31042, and two on poems from London, British Library MS Cotton Nero A. x — one on *Sir Gawain and the Green Knight* and contemporary knighthood, and one on *Patience* and the question of obedience to authority. One essay focuses on an incident in *Piers Plowman* dealing with the lawlessness of the gentry. Another looks at *Pierce the Ploughman's Crede* and Lollard attitudes to written texts. And another considers the clerical agenda of St Erkenwald and the writing of history. Two related texts — *Richard the Redeles and Mum and the Sothsegger* — are analysed, along with Gower's *Cronica Tripartita*, as verdicts on the reign of Richard II and as expressions of the determination of poets to comment on political affairs in contexts which sought to silence them. Finally, what may have been the last great English alliterative poem, *Scotish Ffeilde*, is considered in relation to other contemporary poems on the Battle of Flodden of 1513.

Alliteration and Sound Change in Early English Sep 23 2022 This 2003 study uses evidence from early English verse to reconstruct the course of some central phonological changes in the history of the language. It builds on the premise that alliteration reflects faithfully the acoustic identity and similarity of stressed syllable onsets. Individual chapters cover the history of the velars, the structure and history of vowel-initial syllable onsets, the behaviour of onset clusters, and the chronology and motivation of cluster reduction (gn-, kn-, hr-, hl-, hn-, hw-, wr-, wl-). Examination of the patterns of group alliteration in Old and Middle English reveals a hierarchy of cluster-internal cohesiveness which leads to new conclusions regarding the causes for the special treatment of sp-, st-, sk- in alliteration. The analysis draws on phonetically based Optimality-Theoretic models. The book presents valuable information about the medieval poetic canon and elucidates the relationship between orality and literacy in the evolution of English verse.

English Alliterative Verse Feb 04 2021 A revisionary account of the 900-year-long history of a major poetic tradition, explored through metrics and literary history.

Description and Narrative in Middle English Alliterative Poetry Dec 14 2021 The characteristic alliterative poem of the 14th and 15th centuries tells a story of incident and adventure: it is pre-eminently the poetry of narrative. Yet it is also, more than any other kind of medieval verse, remarkable for passages of vivid description, taking advantage of the extraordinary rich verbal resources of the alliterative poets and the characteristic strengths of the alliterative line. Memorable examples are the green chapel in *Sir Gawain and the Green Knight*, the storm at sea in *Patience*, the dream-landscape in *Pearl*, and the mysterious tomb in *St Erkenwald*; there are violent battle-scenes, descriptions of hunting and hawking, beautiful meadows and terrifying mountains, purling streams and wild rivers. Here is a seeming contradiction, or at least a tension that needs to be explored. The descriptive passages are digressions that interrupt the narrative; the story must pause to take in a visual effect. In *Description and Narrative in Middle English Alliterative Poetry*, Thorlac Turville-Petre explores this relationship between description and narrative, and the contribution of description to the narrative. Passages from all the major alliterative poems are analysed, and translated as necessary, so that the book may meet the needs of students as well as scholars familiar with the language and the topics discussed.

The Abc's of Alliteration Word Fun Nov 20 2019 The ABCs of Alliteration Word Fun is a multi-purpose book. This book was written for younger children and as a tool for older children to help them learn more about the English language. Younger children can learn the letters in alphabetical order while learning their sounds. Older children could use the book to learn the skill of alphabetical order as well as appropriate word

meanings. The skill of proper sentence structure and word use is also introduced in the book. The alliterations at the end of the book were provided as a challenge for older students/children to entice them to write their own alliterations. With the many language skill possibilities presented in this book I think it can be seen as a multi-purpose learning tool.

It falls into four sections, beginning with an exhaustive account of the mechanics of alliteration and their development up until the present; a review of the development of research into the subject; the author's own research into the nature of alliterative verse, with special attention to complex phenomena such as vowel alliteration, s-clusters and hv-alliteration; and final section summarizing the main conclusions. Written by a scholar and poet, this is an essential handbook for the English-speaking research student in the subject.

The Metre of Old Saxon Poetry Mar 17 2022 A comprehensive study of Old Saxon metre, based on close analysis of the *Heliand*. This is a comprehensive study of Old Saxon metre, with a particular emphasis on the *Heliand*, an alliterative epic of the Gospel story and the most extensive work of Old Germanic poetry. Through a detailed description of the metre in its own terms and a systematic comparison with the Old English alliterative tradition, especially *Beowulf*, this book shows how the *Heliand* poet introduced a wealth of metrical innovations, reorganising the traditional scheme underneath an overarching principle of artistic design. After setting out the literary, metrical, linguistic, and practical bases, the author moves on to consider the *Heliand* metre in depth, looking at its properties; he identifies a set of metrical types, determines their distributional constraints, and establishes their paradigmatic and syntagmatic organisation. He also deals with resolution and alliteration, and the composition of hypermetric verses and lines. Appendices cover the scansion of foreign names, and the metre of the Old Saxon *Genesis*. SEIICHI SUZUKI is Professor of Old Germanic Studies, Kansai Gaidai University, Japan.

Versification Aug 30 2020 *Versification* describes the marriage of language and poetic form through which poetry is produced. Formal principles, such as metre, alliteration, rhyme, or parallelism, take precedence over syntax and prosody, resulting in expressions becoming organised as verse rather than prose. The aesthetic appeal of poetry is often linked to the potential for this process to seem mysterious or almost magical, not to mention the interplay of particular expressions with forms and expectations. The dynamics of versification thus draw a general interest for everyone, from enthusiasts of poetry or forms of verbal art to researchers of folklore, ethnomusicology, linguistics, literature, philology, and more. The authors of the works in the present volume explore versification from a variety of angles and in diverse cultural

milieus. The focus is on metrics in practice, meaning that the authors concentrate not so much on the analysis of the metrical systems per se as on the ways that metres are used and varied in performance by individual poets and in relationship to language. *Alliterative Poetry of the Later Middle Ages* Jan 03 2021 Originally published in 1989, *Alliterative Poetry of the Later Middle Ages* is an anthology of texts looking at the tradition of alliterative poetry in medieval English literature. The book presents lesser known alliterative Middle English poems, which are unmodernised and include explanatory footnotes designed to give clarity to the text and enable critical response to the texts. The book illustrates the great range and variety of alliterative verse, both rhymed and unrhymed. The poems range from descriptions of armies, bloody battles, dramatic storms and dreams of goddesses. Whatever the subject, social and political satire, theological controversy and moral admonition is always given a lively and interesting setting. The book contains a succinct and incisive introductory material and a carefully selected bibliography which will encourage further reading.

Smirking and self-important, the slug keeps slithering his way up a highly suspect slope. Will the slug stop? Are the sparrow, the spider, and the swallowtail simply trying to sabotage the slug's progress? Why is everyone screaming at the slug? Pamela Duncan Edwards and Henry Cole have created another alliterative tale that will have children snorting out loud at the surprise ending for this very smug slug.

The Alliterative Morte Arthure Aug 18 2019 The present volume grew from a nucleus of four papers given at the Twelfth International Arthurian Conference at Regensburg in 1971 on the alliterative *Morte Arthure*, increasingly recognised as one of the great masterpieces of medieval English literature. These lectures sought to reappraise the poem and its somewhat enigmatic historical and cultural context, and are presented here in a much revised and expanded form. Unlike most volumes of this kind, the contributions form an integrated whole, the result of lengthy discussions among the collaborating scholars over the past year. The topics range from the poem's place among chronicles and Arthurian romances to the date, audience and attitude to contemporary problems, notably that of war. Specific fields such as heraldry and laments for the dead are examined in detail, while the linguistic structure of the poem is the

subject of two essays.

A Little Book of Alliterations Dec 26 2022 Presents an imaginative and artistic interpretation of the letters of the alphabet using alliterative verse.

Alliteration, Again and Again Aug 22 2022 The genesis of the alliterations in this book was an email exchange in 2001 with a colleague in Albany, New York. In the emails, we traded alliterations back and forth, variously signing our emails Phrantic in Philadelphia, Accommodating in Albany, Perplexed in Philadelphia and finally, Alliterative in Albany. This email exchange was ultimately the inspiration for my first alliteration about the city of Albany. I then set myself the challenge of exploring the alliterative possibilities of each letter of the alphabet and this slim volume of alliterative verse, *Alliteration, Again and Again*, is the culmination of that endeavor. My earnest hope is that this work will not be dismissed as: Alliteration, an author affliction and awful addiction, avoiding any actual artistic achievement.!

The English Alliterative Tradition Feb 22 2020 The meter of Middle English alliterative poetry, Thomas Cable contends, holds the key to a reinterpretation of both Old English meter and iambic pentameter, which in turn provides a new understanding of Middle English meter itself. Drawing upon recent insights in linguistics, Cable articulates a revolutionary theory of rhythm in English poetry from its beginnings through the Renaissance and beyond. Cable's discussion moves from the rhythms of Old English poetry and prose to the poetry of Chaucer and the Alliterative Revival, to Shakespeare and T. S. Eliot. He demonstrates that Middle English poetry does not show the continuity of tradition that standard authorities have asserted. With the Norman Conquest of 1066 came a clear break, and what followed was a drastic misreading by the poets of what had come before. Throughout the book, Cable constantly asks fundamental questions regarding the intentions of the poet, the impact of the perceived metrical tradition upon that poet, and, with reference to Peircean abduction, the possibility of constructing any metrical theory, especially one from the distant past. The answers and their implications—metrical, cognitive, and philosophical—provide the foundation for a new understanding of the creation and evolution of English versification from the seventh century to the present. *The English Alliterative Tradition* is a major and controversial study in medieval English poetics that illustrates and clarifies key ideas of the New Philology. It will be of interest to scholars and students of Old and Middle English, prosody, and historical linguistics.

Riddles, Rhymes and Alliteration Jul 21 2022 "Riddles, Rhyme and Alliteration" is an

activity-based resource that encourages children aged 4-7 years to concentrate, listen to and discriminate between different speech sounds. Teachers can use the material separately or as part of a phonics programme, as each activity has the flexibility to be used with individuals, groups or whole classes. Older children who have listening and auditory discrimination difficulties, poor listening skills, and mild to moderate hearing loss or 'glue ear' can also benefit from using the material. Each of the eighteen sections is based on a particular phoneme and includes two or three pages of illustrations to accompany the activities. The activities are photocopiable and include: riddles which can be solved with the help of the picture pages; exercises on alliteration and rhyming words; tongue twisters; a story containing words beginning with the target phonemes; and a puzzle worksheet based on some of the words from the picture pages. All of the activities have clear instructions and are presented orally by the teacher, except the puzzle worksheets that encourage the child to work independently. The picture pages can also be coloured in at school or at home to help consolidate what has been taught. Written by a teacher for teachers, "Riddles, Rhyme and Alliteration" will prove a welcome resource for those who have limited time for preparation.
