Starks' Harvesters Mar 25 2020 For Rob and Charlie this was the start of memorable years driving Massey Ferguson combines the length and breadth of the American wheat belt. This is Rob's story, a vivid account of endless hours of work, rattlesnakes, truck wrecks, summer lightning, tornados, favourite bars and the 'honeys' at the grain elevators. Rob went on to do five years' harvesting with Dale Starks who comes to life in these pages with all his wisdom and cussedness. This is the man who starred in Yellow Trail from Texas, the BBC documentary that first inspired Rob and Charlie to make the trip. In England, Rob was working as an agricultural contractor. For him, machines and harvesting were more than a way of life - they were a passion. This enthusiasm, which brought Rob long-lasting friendships from his American days, illuminates every page of his book.

Pocket Guide to Britains Farm Model Balers & Combines 1967-2007 Sep 30 2020 Farm model collecting has become increasingly popular with people of all ages. Britains, a leading manufacturer, have a long and distinctive history of producing these models. This book is the first comprehensive fully illustrated guide for those interested in collecting them. The book describes all the baler and combine models produced by Britains since they were first added to its farm model range 40 years ago, and also provides details of their development. As well as standard models, this includes details and photographs of prototype and rare models. The history is complemented by a catalog describing the main features, differences, issue dates and codes of each model produced. Each is illustrated with six color photographs showing the model from different angles and the issue packaging.
