[How to Train Your Viscount](#) Jul 30 2020 The only one who can help her is the man who broke her heart. Four years ago, Lady Caroline Astley took one look at Henry Greville, Viscount Thetford, and fell horribly in love, in that particular way you can only fall in love at the age of fifteen. He didn't just reject her. He humiliated her. But now, in a stroke of rotten luck, he's the only one who can help her. It turns out that the "paste" pendant she borrowed from her sister, Anne, was no fake. It's actually an ancient Egyptian amulet, and now Anne wants to auction it off to save hundreds of widows and orphans. What Caro can't bear to tell her sister is that the necklace was stolen from right around her neck. Caro has a few clues, but she doesn't know an amulet from an obelisk, and the trail has gone cold. Guess who grew up in a house stuffed with Egyptian artifacts? Caro may despise Henry, but she needs him if she's going to track down the thieves. Which begs the question of which is worse: letting down the orphans or risking her heart all over again. If you like sizzling Regency romance that makes you laugh and makes you swoon, give *How to Train Your Viscount* a try! Note: *How to Train Your Viscount* falls on the comedic end of the Regency spectrum; you might call it a Regency rom-com. The love scenes are red hot. Our hero's mother wishes to regretfully forewarn the reader that her son utters several shocking obscenities during the course of the novel.

How to Train Your Brain Everyday Nov 02 2020 Humans have not been able to understand a lot of things. One of these is the human brain itself. The human brain has millions of cells inside it. Each cell has a very specific function. The human mind has immense powers and the harnessing of these powers is in the hands of humans. Complex calculations, body functioning, the synchronized fashion of the human limbs are all in the hands of the brain. Thinking and analyzing is also done by the brain. It has great importance and needs maintenance more than anything else. Yet humans tend to forget this a lot. Training the brain every day is crucial as its performance increases with the exercise it does. The more work it does, the better it performs in the next. A brain can be printed in many ways, but the most important thing that matters in a brain training program is consistency. Keeping the brain healthy is important because of the major functions it performs and also if it doesn't perform well, there could be neurological diseases with age.

How to Train Language Teacher Trainers Jan 04 2021 In recent decades, considerable European investment has been devoted to the training of language assistants, full-time teaching staff and mentors, while the new figure of the professional "language teacher trainer" (LTT) has emerged. It is becoming increasingly important that future LTTs are not simply more expert teachers, or scholars competent in the various relevant disciplines, but professionals who are aware of their role, who know the development of teacher training in Europe and beyond, and who are able to compare various experiences in different training contexts. This volume is aimed at LTTs who wish to become aware of the main issues, tools and research now available for their daily practice and professional role, and for lecturers who teach prospective language teachers. Language teachers with long experience might also find useful information on how they can develop into LTTs. The book also offers an overview of recent European projects that could be relevant to principals of language departments who are involved in the assessment and performance management of their staff. Finally, the volume contains research suggestions for academic and PhD students who are investigating current issues in language teaching methodology, teacher training, lifelong learning and professional development. Contributors include: Mercè Bernaus, Nick Charge, Jim Cummins, Pierangela Diadori, Michael Kelly, Hanna Komorowska, Laura Muresan, Joe Navarro, Brian North, Mario Pace, Fiorella Perotto and Richard Rossner.
