"In this tale of sexual education, the narrator recounts his experiences with eleven fascinating women all of whom happened to be named Karen."--Jacket. "The aqueous systems, including pH regulators and collectors, that affect the floatability of eleven common non-metallic minerals are outlined. The effect of six common modifiers on the floatability of these minerals in the aqueous systems employed is also outlined. Results are presented graphically for ease of comparison. As the work is extended to include other minerals, similar minerals from different sources and additional aqueous systems, further reports will be issued. The project is intended to assist workers in the solution of problems involving non-metallic mineral flotation"--Abstract, page i. This work gives voice to the vanquished, to the psychology of loss and the conflicting desires for understanding and revenge. Sam is almost 11 when he discovers a locked box in the attic above his grandfather Mack's room, and a piece of paper that says he was kidnapped. There are lots of other words, but Sam has always had trouble reading. He's desperate to find out who he

is, and if his beloved Mack is really his grandfather. At night he's haunted by dreams of a big castle and a terrifying escape on a boat. Who can he trust to help him read the documents that could unravel the mystery? Then he and the new girl, Caroline, are paired up to work on a school project, building a castle in Mack's woodworking shop. Caroline loves to read, and she can help. But she's moving soon, and the two must hurry to discover the truth about Sam.

By and large, cost-effective information technology (IT) management is more about people, personal relationships, and corporate culture than it is about the technology itself. Simply put, IT doesn't work if you are surrounded by bad people and stupid processes in a deranged corporate culture. IT's All about the People: Technology Management That Overcomes Disaffected People, Stupid Processes, and Deranged Corporate Cultures explains how to achieve dramatic improvements in service and agility by enhancing the people, processes, and culture within your organization. It details the various roles within the technology management process and supplies authoritative insight into the realities of human behavior—including the range of best and worst behaviors from managers, executives, and corporate culture. Industry veteran Stephen J. Andriole explains the reason behind why many business cases fail and includes helpful insights on new governance models, organic transformation, guerilla budgeting, and open source software. Providing a fresh perspective on the old basics of IT management through a twenty-first-century lens, this book arms you with the methods needed to master the soft art of IT management as well as purchasing, deployment, and technological support. Case studies highlight new approaches to urban police work that can offer hope for better crime control and an improved quality of life. Published by Boydell & Brewer Inc. Covers Bartholomew, Brown, Decatur, Jackson, Jennings counties.
