The Siege of Tsingtau Aug 19 2019 “A well-written, modern narrative of the political and military events leading up to, during and after the German-Japanese War of 1914.”—The Australian Naval Institute The German-Japanese War was a key, yet often neglected, episode in the opening phase of the First World War. It had profound implications for the future, particularly in respect of Japan’s acquisition of Germany’s Micronesian islands. Japan’s naval perimeter was extended and threatened the United States naval strategy of projecting force westward. The campaign to relieve Germany of Tsingtau, the port and naval base in China, and its hinterland posed a grave threat to Chinese independence. The course of the Second World War in China and the Pacific cannot be explained without reference to these events. Charles Stephenson’s account makes fascinating reading. The siege of Tsingtau by the Japanese, with token British participation, forms the core of his story. He draws on Japanese and German primary sources to describe the defenses, the landings, the course of the siege, and eventual German surrender. His study will be absorbing reading for anyone interested in the campaigns of the First World War outside of Europe, in German colonial expansion and the rise to power of Japan. “Overall the volume delivers a much needed, interesting and often highly detailed overview of operations in the Pacific and the siege of Tsingtau. The volume excels especially in its detailed narrative of naval and land operations in the Pacific and in China. The geopolitical background provides a most useful introduction to the history of the region.”—International Journal of Maritime History

Leaving Mac Behind Sep 19 2019 "My first telegram came Sep. 3 1942 that my son was missing in action. And the next telegram came Aug. 18 1943 that he was Declared Dead. Till this day I do

not know what happened to him." Mrs. Ann M. Lyons, August 7, 1957. Between 1942 and 1944, nearly four hundred Marines virtually vanished in the jungles, seas, and skies of Guadalcanal. They were the victims of enemy ambushes and friendly fire, hard fighting and poor planning, their deaths witnessed by dozens or not at all. They were buried in field graves, in cemeteries as unknowns, or left where they fell. They were classified as "missing," as "not recovered," as "presumed dead." And in the years that followed, their families wondered at their fates and how an administrative decision could close the book on sons, brothers, and husbands without healing the wounds left by their absence. 'Leaving Mac Behind' reconstructs the lives, last moments, and legacies of some of these men. Original records, eyewitness accounts, and recent discoveries shed new light on the lost graves of Guadalcanal's missing Marines--and the ongoing efforts to bring them home.

Edson's Raiders Apr 07 2021 The story of the remarkable men of 1st Marine Raider Battalion, known by the name of its founding commander, the legendary jungle fighter Merritt A. "Red Mike" Edson.
