Assessment and Treatment of School-age Language Disorders Jun 14 2021 This book is a practical compendium of assessment instruments and intervention ideas for school-based speech-language pathology who are eager to take their practice beyond traditional language tests and caseload concerns. The manual focuses on three areas of language where language impaired children in elementary school need particular help: phonological awareness, narrative skills, and advanced literacy skills (identifying and stating the main idea, for example). Inside, the reader will find non-standardized assessment tasks, sample interventions activities, sample goals, and objectives and sample lesson plans. These tools provide a framework onto which the clinician can graft activities and materials appropriate for individual children. This is a practical, useful, reality based book of assessment tasks and intervention ideas. It will also provide ideas for helping children who lack these abilities, for writing appropriate goals and objectives and for sharing information about the child's progress with teachers and parents.

Crisis Resource Manual Oct 19 2021 This resource begins with a checklist of things to do and brief explanations of each item on the list. The next section provides forms, fliers and letters with permission to copy those pages during crises to assist in the response, including guidelines for administrators, counselors and teachers, agendas for meetings, templates for announcements to students and parent letters to be sent home. The section on Safe Rooms outlines materials and supplies needed to help students grieve. Included is a chapter on activities to do with youth to assist in the grieving process, including both art and other activities. One chapter covers unusual or challenging deaths (suicide, homicide, missing children and more). Suggestions for Life Tributes (a school-based, student organized memory gathering) are provided. A section on trauma gives a basic format for understanding how those who were at the scene of a death may struggle and how schools can support those assist those students to continue to participate in the academic process in spite of the difficulties with memory and focus. The chapter on follow-up provides key factors in preventing one crisis from cascading into more. Finally, staff tasks and assignments are listed. The book is organized such that what one needs to respond to the crisis at hand is in the front of the book, easy and fast to find when every second counts. Information about planning and training is in the back. The book is designed to be what school staff reach for in the heat of the moment, so the organization of the first half is based on the timelines of what is needed at each step along the way during the crisis. When first examining the book, users are

encouraged to start at the back for organizational information to put in place, knowing that, when crisis strikes, what you need immediately is on page one.
